Professional Summary

Front-End Developer with over two years of experience in developing responsive, high-performance web applications using React.js, Next.js, and Tailwind CSS. Skilled in Server-Side Rendering, API integration, and state management to deliver seamless user experiences. Proficient in collaborating with clients and optimizing applications for SEO, accessibility, and cross-browser compatibility.

Professional Experience

Freelance Front-End Developer | January 2023 - Present

- Developed responsive web applications, including e-commerce platforms and dashboards, using React.js, Next.js, and Tailwind CSS.
- Implemented Server-Side Rendering and Static Site Generation with Next.js to improve SEO and reduce page load times by up to 20%.
- Integrated REST APIs and optimized UI performance using Redux and Context API for efficient state management.
- Collaborated remotely with clients to deliver accessible, cross-browser-compatible front-end solutions.

Technical Skills

- Programming Languages: HTML, CSS, JavaScript, TypeScript
- Frameworks and Libraries: React.js, Redux, Context API, Redux Toolkit, React Router, Next.js (in progress), TypeScript (in progress)
- Styling: Tailwind CSS, Material UI, Material Tailwind, Styled Components
- Tools: Git, GitHub, Vercel
- Other: API Integration, Server-Side Rendering, Static Site Generation, SEO, Cross-Browser Compatibility, User Interface Design

Soft Skills

- Collaboration
- Problem-Solving
- Time Management

- Attention to Detail

Projects

Portfolio Website

Built a personal portfolio using React.js, TypeScript, and Tailwind CSS with REST API integration for dynamic content. Ensured responsive design across devices.
