MOHAMED ELSAYED ABDELMOHSEN ELROKAPY

Full-Stack Developer | React / Next.js / TypeScript | Python / FastAPI | Linux, DNS & Deployment

Al Jizah, Egypt | +20 127 038 0822 | mohamedrad2022@gmail.com | linkedin.com/in/mohamed-elrokapy | github.com/mohamed-elrokapy | portofolio-xi-wine.vercel.app

PROFESSIONAL SUMMARY

Front-end and full-stack developer with 2+ years of hands-on experience building responsive, SEO-aware web applications with React.js, Next.js, TypeScript, and Tailwind CSS, plus Python (FastAPI, Django) and Strapi for back-end work. I also handle the setup work many developers avoid: Vercel, Railway and Plesk deployments, DNS and SSL, and mailbox migration. Currently a Technical Operations Associate at FloLabs, supporting production websites across AI, robotics, and software projects.

CORE SKILLS

Front-End: React.js, Next.js, TypeScript, JavaScript ES6+, HTML5, CSS3, Tailwind CSS, Material UI, Shadcn UI, Redux Toolkit, responsive design

UI Workflows: React Hook Form, Formik, Axios, TanStack Query, RTK Query, Context API, Framer Motion, reusable components

Back-End & CMS: Python, FastAPI, Django, Strapi, pytest, REST API integration, authentication workflows, JWT, OAuth, NextAuth

DevOps & Hosting: Linux, Git, GitHub, GitHub Actions, Docker, Docker Compose, CI/CD basics, Vercel, Railway, Hostinger, Plesk, Dynadot, DNS records, SSL, domain setup, mailbox support

Databases & Quality: PostgreSQL, SQL, Jest, React Testing Library, Lighthouse, SEO basics, performance optimization, lazy loading, code splitting

Networking Basics: networking fundamentals (CCNA topics), IP, ports, DNS, hosting, email setup

PROFESSIONAL EXPERIENCE

Technical Operations Associate | Full-Stack Developer & DevOps | FloLabs | Remote | Apr 2026 - Present

- Support full-stack web development, technical operations, DevOps workflows, Linux troubleshooting, and web infrastructure across company websites and platforms.
- Work with Plesk, Dynadot, DNS, SSL, mailboxes, server-side configuration, Vercel, GitHub, and structured Git-based deployment workflows.
- Assist with website migrations, hosting setup, email infrastructure configuration, deliverability troubleshooting, mailbox migration workflows, documentation, and task tracking.
- Collaborate with operations and cross-functional teams working on AI, robotics, software, and web-based projects.

Full-Stack Developer Intern | FloLabs | Remote | Dec 2025 - Mar 2026

- Contributed to development, design, and operations tasks while supporting real-world website and product workflows in a remote international environment.
- Assisted with front-end implementation, UI polishing, CMS-connected pages, debugging, Git-based updates, and practical delivery tasks.

Freelance Web Developer | Private Projects | Remote | 2024 - Present

- Built landing pages, business websites, responsive interfaces, and self-managed projects using React.js, Next.js, TypeScript, Tailwind CSS, and modern UI workflows.
- Handled forms, CMS-connected pages, front-end fixes, deployment support, Git-based updates, hosting setup, domain configuration, and production issue resolution.

Front-End Developer | Dr.Code1 | Al Jizah, Egypt | Sep 2025 - Nov 2025

- Built responsive web interfaces using React.js, Next.js, TypeScript, Tailwind CSS, Material UI, and Shadcn UI in sprint-based team workflows.
- Participated in reusable component development, documentation, debugging, code reviews, and maintainable front-end architecture practices.

Front-End Developer | Gooweb | Al Jizah, Egypt | Aug 2024 - May 2025

- Developed landing pages and e-commerce interfaces in React.js and Next.js with responsive, user-focused design, working inside a team delivery and deployment process.

SELECTED PROJECTS

DNS & Email Health Checker | *Python, FastAPI, Next.js, TypeScript, Docker, GitHub Actions* | github.com/mohamed-elrokapy/dns-email-health-checker

- Checks a domain's MX, SPF, DKIM and DMARC records (SPF 10-lookup limit, include/redirect loops) and explains what is wrong. Built from the email deliverability problems I handle at work; pytest suite and CI run on every push. Written with AI assistance, disclosed in the repository.

E-Commerce Store with Admin Dashboard | *React, Tailwind CSS, Strapi* | Live demo: e-commerce-with-dashboard-neon.vercel.app

- Storefront (search, cart, checkout demo) and a role-guarded admin dashboard with product and user management; Strapi API with seeders; unit tests and CI. Live site runs in demo mode without a backend.

Movie and Series Browser | *React, Redux Toolkit, Tailwind CSS, TMDB API* | Live demo: movie-app-one-wine-86.vercel.app

- Search with keyboard navigation, detail, cast and crew pages, loading and error states; cut the JS bundle from 1.29 MB to 376 KB.

Healthcare Website (demo) | *Next.js, TypeScript, Tailwind CSS, Zod* | Live demo: medical-care-eta.vercel.app

- Responsive clinic site with an accessible, validated appointment form. Sample content only, no real clinic.

Web Infrastructure and Deployment Support | *Linux, Plesk, DNS, Dynadot, Vercel, GitHub*

- Supported hosting setup, DNS/domain configuration, SSL setup, deployment workflows, mailbox migration support, and production troubleshooting.

EDUCATION & LANGUAGES

Bachelor of Law (Ongoing), Helwan University, Cairo, Egypt | 2022 - Present

Self-Taught Front-End Developer | Specialized in React.js, Next.js, TypeScript, and modern web development | 2023 - Present

Courses (ITI, 2025): NoSQL Databases and MongoDB, Database Fundamentals

Arabic: Native | English: Advanced | German: Beginner A1 | Available for remote, hybrid, and on-site roles
